Testimonials

"The tenant and her daughter were very excited to have a home. Even though her background was a bit suspicious, we felt comfortable renting to her with the extra support."

"I was having a lot of trouble getting accepted to an apartment. I finally found a place that was close to the neighborhood my children were used to. I didn't meet the qualifications for renting because my income and credit score were a little lower than they wanted. Thankfully, the landlord was willing to accept the landlord insurance policy in place of the eligibility criteria, and my kids and I now have a safe place to live."

→ I.J., *West St. Paul Renter*
