¹ The report uses market entry occurrence, which groups individual listings by rent, bedrooms, phone number, city, address and length of continuous publication. A gap of more than 15 days between publication dates, or a change in any of the other criteria, will create a new occurrence of the listing. Each occurrence that was published and available to the search tool is counted as a listing for the reporting period.

² 0,1,2 bedroom listings are counted for 1-person households

³ 1,2,3 bedroom listings are counted for 3-person household.

⁴ 2,3,4 bedroom listings are counted for 5-person household.

⁵ Annual income calculated based on HUD FY'19 income limits, effective 04/24/2019.

⁶ Hourly income based on 2,080 work hours per year.

⁷ Affordable rent = a rent amount that is less than 30% of a household's total monthly income.

⁸ Cost-burdened rent = a rent amount that is equal to 30% - 50% of a household's total monthly income.

⁹ Total listings = total hList listings at all rent levels for the bedroom sizes included in each household category.
