

# Geographic Distribution of Foreclosures in MN 2007-2011

*a look at rates by quartile*

# Geographic Distribution of Foreclosures in MN 2007-2011

## WHAT THESE MAPS REPRESENT:

- *Relative* rate of foreclosure across MN counties.
- How the distribution of foreclosure rate by county has changed, year-over-year.

*HousingLink bases foreclosure rate on a calculation of foreclosures/residential parcels. In the following maps, actual rate for the quarter appears in a label reflecting the percent of all residential parcels to have been foreclosed in a given quarter.*

## What we find:

*A gradual spread from what was largely an urban concentration to a problem that is more geographically broad.*
