¹ To learn more about how HousingLink calculates affordability by area median income, watch this video.
*AMI (Area Median Income) is $73,500 for an individual and $104,900 for a family of four in the Twin Cities Metro (HUD, 2021).

Source: HousingLink’s Market Rent Data. AMI based on HUD’s Income Limits data, published annually at https://www.huduser.gov. Affordability analysis based on a family paying no more than 30% of income on gross housing costs, accounting for household size, utility costs, and building type.
Subsidized Housing in Minneapolis

Housing Choice Vouchers forfeited in Q4 2021¹
This figure refers to vouchers families were unable to place in service. Traditionally, this has usually resulted from rent exceeding the Public Housing Authority’s ability to adequately subsidize the voucher holder’s portion of, or a landlord’s unwillingness to participate in, the Section 8 Housing Choice Voucher program.

Another scenario resulting in forfeiture can involve Public Housing residents who ultimately make a choice to stay in their current unit. This is not uncommon, as the individuals may find that living with a voucher is more costly than living in a public housing unit.

And some simply do not search for a unit because they have existing housing they are not ready or willing to leave, or have circumstances otherwise preventing a housing search.

¹ Source: Analysis of City of Minneapolis Regulatory Services rental license data. Note: The City of Minneapolis uses a tiered rating system as part of their rental process. Tier 3 rentals are those which require excessive city services, are poorly maintained or managed, and may be at a higher risk for fire damage. Tier 3 rentals are additionally on the most frequent inspection cycle (one-year). In 2020 Regulatory Services updated the Tiering system to better reflect the known property conditions of rental units and to prioritize inspections.
² 2021 tiering reflects a lower volume of both inspections and violations during the pandemic. 2020 tiering was as a result of inspections and violations in 2019, a pre-pandemic year.
