¹ Source: Analysis of City of St. Paul Department of Safety and Inspections Fire Certificate of Occupancy data. Note: The City of St. Paul requires inspections of non-owner-occupied housing units on a regular basis. Class C and Class D properties are those that are least compliant with all state and local safety codes, triggering re-inspection every two years (Class C) or one year (Class D). Reported units only include those which receive a Fire Certificate of Occupancy grade, a practice which is only required for single family homes and duplexes that are not owner-occupied, and for rental properties of three or more units, and excludes units that mix residential with other uses.

Apartment Sales & Development

Apartment Development as of Q4 2021¹

**PROJECTS PROPOSED**
- w/Known Affordable Units: 15
- w/no Known Affordable Units: 29

**PROJECTS PERMITTED & UNDER CONSTRUCTION**
- w/Known Affordable Units: 18
- w/no Known Affordable Units: 33

Presence of affordable units is not always known when information is gathered for this metric and thus it is most accurate to simply refer to projects “w/Known Affordable Units” and projects “w/no Known Affordable Units.”
